POWDER

Of superior quality, fresh from the mills. It is constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and in every way superior to any other Powder Market.

We have been awarded successively

THREE GOLD MEDALS

By the MECHANICS' INSTITUTE and the STATE AGRICULTURAL SOCIETY for the superiority of our products over all others. We also call attention to our

HERCULES POWDER.

Which combines all the force of other strong explosives now in use, and the lifting force of the Best Blasting Powder, thus making it vastly superior to any other compound now in use.

A circular containing a full description of this Powder can be obtained on application to our Office, or of any of our Agents.

OFFICE 240 MONTGOMERY ST., COR. PINE.

The Object of This Association

Is to provide aid to its members, their heirs or dependents by a mutual association of persons in good health, in order to equalize the risk of accident or mortality, and to furnish the aid so rendered at the least possible cost to members. The plan of this Association combines the principles of the mutual life companies and Co-operative or fraternal societies. It rejects the defective portion of each, such as the large premium and expenses charged by the one and the degraded treatment of the other.

In this Association each member pays the actual expense of his insurance for the time it is carried. A fund—the amount of one assessment from each member—will be carried, which fund will guarantee the payment of the full sum due from the number of members at the time of the death of a member. Every dollar collected from the members for assessments will be paid to the beneficiaries. The general expenses will be met by the member ship fees and the fees for notifying and collecting assessments.

Any person between the ages of fifteen and sixty-four, inclusive, with proper qualifications, may become a member, and must make application on the printed form furnished by the Association, accompanied by the membership fee, pass a medical examination, and be accepted by the Committee on Applications. The benefit will be the amount (\$1000, \$2000, \$3000 or \$5000) named in the Certificate of Membership, provided the assessment from all the members of the class yields the amount named, and further provided that members over fifty-four years of age, on joining, shall be limited to \$5000 benefit.

Assessments shall be graded for the different ages of members as follows for each \$1000 benefit:

| | | | |
|----------------|-----------|----------------|-----------|
| Under 20 years | .. \$0.70 | Under 35 years | .. \$2.10 |
| do 25 do | .. .80 | do 36 do | .. 2.50 |
| do 30 do | .. .90 | do 40 do | .. 2.80 |
| do 35 do | .. 1.00 | do 45 do | .. 3.00 |
| do 40 do | .. 1.10 | do 50 do | .. 3.40 |
| do 45 do | .. 1.20 | do 55 do | .. 3.80 |
| do 50 do | .. 1.30 | Over 60 do | .. 5.00 |

Class 1—Minimum Benefit, \$5000.
3-5 Benefit \$3000; 2-5 Benefit \$2000, 1-5 Benefit \$1000.

Membership fee for \$5000 or \$3000 Benefit... \$70
Membership fee for \$2000 or \$1000 Benefit... \$40
Persons desiring a larger benefit than \$5000 can take membership in a second class.

The Membership fee pays the expense of organization if made by the Medical Director or a Medical Examiner of the Association.
The Assessment pays the Benefit to the member's family.
The Collection Fee, which pays the expense of notifying and collecting the assessment will be 25 cents for \$500 or \$1000 Benefit and 50 cents for \$2000 or \$5000 Benefit.

Assessments will be payable at the Home Office of the Association within 3 days from date of notice. But no assessment shall be made when the amount of money in the Reserve fund is sufficient to pay one full benefit. Any surplus realized from an assessment shall be held to pay future death losses.

The amount due beneficiaries on all claims will be paid within 60 days after the receipt of the required proof of death of a member, provided a question arises as to the rights of the claimant or the liability of the corporation under its certificate. When there is no question of delay or investigation, the benefit will be paid sooner.

The records of each class will be open to the inspection of members at all times during business hours.
No part of a class fund can be paid out except by vote of the Trustees and on order signed by the majority of the Trustees.

Members of this Association pay for death losses in proportion to their age; hence young and middle-aged persons feel no reluctance to join, and the Association will have no trouble whatever to keep its membership full. Whatever the age of a member, his share of the cost as compared with the cost of others is equitably adjusted according to the death rate of his age, and the Association will have no trouble whatever to keep its membership full.

The Certificate of Membership is a receipt for the money paid, and each member receives his money's worth in the desired security or protection afforded from year to year.
There are no restrictions as to travel, but a change of residence to any point outside the territory in which the Association does business, without the consent of the Association, will cause a forfeiture of the Certificate.

Remittances should be made to the Secretary by P. O. order, cashier's check, or in a registered letter.
It being supposed by some that the cost of insurance in the Home Benefit Association is larger, the following comparison is simply to show that where the assessment is smaller than in the Home the number of assessments will be increased correspondingly.

One assessment from 3000 persons (average age 35), at the rate for \$2000 Benefit would realize as follows:
A. O. W. rate \$1..... \$3000 00
Knights of Honor rate \$1..... 1800 00
Chow's Friends rate \$1.90..... 5700 00
Home Benefit Association rate \$2..... 6000 00

One assessment from members in the Home will pay twice as many benefits as one assessment from the same number of members in the other societies. Where the assessment is less the number of assessments must be more. In the Home the rate being larger, the number of assessments will be less.

The cost of insurance will then be the same in all societies where the rate is equally graded, and where hazardous risks are accepted. The expenses of management will be less in the Home, as it charges no yearly quarterly or monthly dues the charge for expenses being only a fee for collection, and each assessment is less the less the number of assessments the less the expense to each member.

As the number of assessments for the first three years will probably not exceed three per year, the expense on that basis will be \$75 for \$2000 Benefit, or \$150 for \$5000 Benefit per year. Send to Home office, or our agent in your city or town, for a blank application. The medical examination can be made by one of your "regular" local physicians, unless we have an appointment made with a physician in your city or town. The fee for examination is included in the membership fee if made by a medical examiner of the Association.

I understand this plan and have only paid for what he gets—the desired protection for the time being. If he fails to pay the next assessment his membership and liability terminate, he only loses his right and privileges in the Association, but none of the money he has paid in, as he has already received its value in the protection given while a member. (In the same principal a man gets his house insured, at the expiration of his policy the property has not been destroyed, but he has had the full value of the money in the security afforded during the term of the policy. Under this system he pays as he goes; and only for what he gets, he does not advance

MISCELLANEOUS.

large sums of money year after year to procure protection in the distant future, with a chance of losing it by dishonest officials, depreciation of securities, or by other ways too frequent in these days. He retains the custody and use of his own money, paying it over only when needed, and then in a sum so small that he can find no difficulty in meeting it.
In providing for your own family, you help provide for others.
Tens of a few men carrying the risks to speculation, many combine to carry the risks of each other.

NEWSPAPERARCHIVE®

NEWS OF THE MORNING.

The President and Cabinet have decided against an extra session of Congress.

At 4 o'clock yesterday morning the long expected connection between the south branch of the Sutro tunnel and the north drift from the Yellow Jacket mine was effected. The line and grade proved to be nearly perfect.

Several friends of the President are giving an interesting interpretation to the nomination of Robertson for Collector of New York. They declare it to be in the nature of a declaration of independence on the part of the President of the dictation of the Conkling element.

Commodore Robert Shufeldt, U. S. N., will shortly be detached from duty as Naval Attaché of the United States Legation at Peking. This action will be taken for the purpose of allowing Commodore Shufeldt to accept the command of the Chinese Navy, which has been formally offered him by the Chinese government.

A State Convention of colored voters was held in Baltimore on the 25th to take action with regard to a more equal division of Federal patronage in Maryland to colored Republicans. The resolutions adopted declare that the distribution of Federal patronage is not in accordance with the principles of the Republican party, and that the colored voters are entitled to a fair division.

The New York Herald's San Francisco special says: Mayor Killoch, the father of the acquitted young man, is undoubtedly popular with a class, and as noses count at the ballot-box, his chances of re-election are better to-day than ever. There has been whisperings for months back that the sister of de Young would avenge her brother's death. The end is not yet.

One of the most persistent and active advocates of Stanley Matthews is Judge Field of California. Field has made it his business to go among the Democratic Senators and urge the confirmation of Matthews, offering his own pledge and assurance that Matthews would be conservative on the Bench, and that he would be in full sympathy with his (Field's) views on the Southern question and questions of government generally.

NOTES.

Has anything been heard lately from the Woodland tragedy?

Garfield's "bricks" are thrown with a stronger hand than Ben Butler's.

It appears from the books of the Treasurer's Department after all that there were deductions from the salary of Senator Sharon on account of chronic absence. Sharon didn't care.

The verdict of the San Francisco Coroner's jury in the case of Adolph Schander, who shot Captain Adams, of Eureka, was justifiable homicide. It is rather strange that the jury did not find that Adams killed Schander.

NEWS NOTES.

J. E. Mills is going to paint a portrait of Lord Beaconsfield to form a companion picture to the same artist's most successful portraits of Mr. Gladstone and Mr. Bright.

Woods, "the Irish Miner," who took an active part in the Republican canvass in Indiana last Autumn, has been made doorkeeper of the Indiana House of Representatives.

James Gordon Bennett's latest eccentric performance is that of hiring Johann Strauss and his orchestra of eighty men to play for his special gratification at Pan for one month at a cost of nearly \$30,000.

The first through train, east, over the new route, has made a remarkable record. It left San Francisco on time, arrived at Kansas City on time, and was on time at every station along the entire route of 2,300 miles.

Instead of building a fashionable \$1,000,000 State House to replace the recently burned structure, the Minnesota Legislature wisely propose to erect a plain, substantial brick building on the old site to cost \$75,000. When the State has plenty of money to spend on modern architectural extravagancies a better building will be put up.

Garfield Thanked.

On motion of Jacobs (Dem.) the New York Senate unanimously passed the following resolutions: "Resolved—That the thanks of this Senate are tendered President Garfield for the nomination of Senator Robinson as Collector of the Port of New York, and we cordially join in the request to the Senate of the United States to promptly confirm the nomination."

Senator Sharon's Salary.

It appears from the books of the Treasurer's Department that, after all there were deductions made from the salary of Senator Sharon on account of chronic absence. Mr. Sharon did not put in an appearance at all during the period of the extra session which commenced in March, 1879, and ended on July 1, 1879, and by order of the Secretary of the Senate his pay for that entire period was retained and covered back into the treasury. It seems that Sharon made no remonstrance and accepted the decision of the Secretary without remark, although it is generally believed that he made the point that there was no authority under which his pay could have been withheld. The provisions of law under which the Secretary of the Senate based his action are contained in sections 40 and 41 of the Revised Statutes, which proved that the salary of each member of the Senate shall be deducted for each day that he has been absent, unless he assigns a reason for such absence—sickness of himself or of some member of his family—and, also, his mileage, unless he has withdrawn from his seat with the consent of the house of which he is a member. When Gorham was Secretary of the Senate he referred the question of Senator Sharon's right to draw his pay, despite his frequent absences, to the First Controller of the Treasury, Taylor, who decided that the act of March 7th—generally called the Back Pay act—rendered inoperative sections 40 and 41 of the Revised Statutes. The present Secretary, when he came into office, again referred the matter to the First Controller, at that time Mr. Porter, now Governor of Indiana. Mr. Porter held that it was a question for the Secretary of the Senate to decide, and Mr. Burch thereupon decided that Sharon was not entitled to his pay for the extra session at which he was not present. This, it is believed, is the only case where the pay of a Senator or member has been withheld on account of absence.

A Bad State of Affairs.

Matters and things in Lincoln county are indeed in a very bad state of affairs, says the Pioche Record. About three weeks ago James Greenwood and N. Clark were shot by Hank Parrish at El Dorado Canyon, in the lower part of this county, and the news of the shooting reached Pioche Sunday morning, the 16th instant, and four days after the news reached Pioche that Greenwood had died and Clark was not expected to survive his wounds, yet not a move was made for the arrest of the supposed murderer. Last Sunday Sheriff McKee received a dispatch from John C. King, Sheriff of San Bernardino county, California, stating that he knew where Parrish was and could and would arrest him if so ordered. Sheriff McKee showed the dispatch to one of our County Commissioners and asked him if the county would pay the expense for the arrest of Parrish and his transportation, if so he would have the murderer arrested and go after him and bring him to Pioche. The Commissioner said that he had talked with several in regard to the matter; that the expense of trial would be too heavy on the bankrupt county; that they would have to pay an attorney \$500 for prosecuting the case, and with the result of the McLane case before them, it was thought that Parrish could not be convicted. The other Commissioners are of the same opinion. We are unaware of the District Attorney having done anything in the matter, and notwithstanding his having received a letter containing the circumstances of the case, he never made complaint or had a warrant issued for the arrest of the shooter, as was his duty.

Davis Creates a Surprise.

The Chicago Journal's Washington special says that both Republicans and Democrats were treated to a surprise by David Davis Thursday. As soon as the Senate met the resolution for officers came up and after Pendleton had shrewdly appealed to Dawes not to press the resolution at this session and been refused, Davis took the floor and in a short speech attempted to justify his vote on the reorganization of the Committees and then said he was clearly of the opinion that as the majority in the Senate had reorganized the Committees they should have control of the Senate officers, and he could not interpose and vote against speedily accomplishing that result. The speech created a profound sensation on the Democratic side, while the Republicans showed unmistakable satisfaction. The Democrats then began filibustering and putting motion after motion to adjourn to go into executive session. There was one majority against all these motions, Mhone and Davis voting with the Republicans.

A Maryland man was kicked by a mule just in time to get him out of the way of a stroke of lightning. Some men would have seen a special Providence in this. But he didn't. He cursed that the lightning didn't strike him in time to get out of the way of the mule.

LAWS OF THE STATE OF NEVADA.

Passed by the Tenth Session of the Legislature, 1891.

CHAP. XXVIII.—An Act to amend Section Five Hundred and Eighty-three of an Act entitled "An Act to regulate proceedings in civil cases in the Courts of Justice in this State, and to repeal all other Acts in relation thereto," Approved March 8th, 1869. [Approved February 16, 1891.]

The people of the State of Nevada, represented in Senate and Assembly, do enact as follows:

Section 1. Section Five Hundred and Eighty-three of said Act is hereby amended so as to read as follows:

Section Five Hundred and Eighty-three. Upon receiving the notice of appeal and on payment of the fees of the Justice and filing an undertaking, as required in the next Section, the Justice shall, within five days, securely attach to a certified copy of his docket all the papers filed in the cause, together with the notice of appeal and undertaking filed, and transmit the same to the Clerk of the District Court. The certified copy of the docket, the papers, notice and undertaking, attached together as aforesaid, shall be the transcript on appeal, and the Clerk of the District Court shall file such transcript on payment of the fees therefor. The Justice may be compelled by the District Court by an order entered on motion to transmit such transcript to said Clerk, and may be fined for neglect or refusal to transmit the same. A certified copy of such order may be served on the Justice by the party or his attorney. In the District Court either party shall have the benefit of all legal objections made in the Justice's Court.

CHAP. XXIX.—An Act to amend an Act entitled "An Act relating to elections," approved March 12th, 1873. [Approved February 16, 1891.]

The people of the State of Nevada, represented in Senate and Assembly, do enact as follows:

Section 1. Section Thirty-one of said Act is hereby amended so as to read as follows:

Section Thirty-one. The Board of County Commissioners, after making the abstract of votes, as provided in Section Thirty, shall cause their Clerk, by an order, made and entered in the minutes of their proceedings, to make a copy of said abstract, and forthwith transmit the same to the Secretary of State, as the seat of government. If the Board of County Commissioners should neglect or refuse to make the order, as required by this Act, they, and each of them, shall be guilty of a misdemeanor in office, and shall, on conviction, be liable to a fine of not less than one hundred dollars, or more than five hundred dollars, each, and imprisonment in the county jail for not less than ten, and not more than one hundred days, each, or both such fine and imprisonment, and shall be removed from office. And on the third Monday of December succeeding such election, the Chief Justice of the Supreme Court, and the Associate Justices, or a majority thereof, shall meet at the office of the Secretary of State, and shall open and canvass the vote for Members of Congress, District and State officers; and the Governor shall grant a certificate of election to and commission the persons having the highest number of votes, and shall also issue proclamation, declaring the election of such persons. But in case there shall be no choice, by reason of any two or more persons having an equal and the highest number of votes for the same office, the Senate and Assembly shall convene in the Assembly chamber, on the second Monday of February, at the next regular session of the Legislature after such election, and by joint vote of both Houses, elect one of said persons to fill said office, provided, when an election for Electors of President or Vice President of the United States takes place, the vote thereof shall be canvassed in the manner aforesaid, on the fourth Monday after such election is held.

Sec. 2. Section Thirty-five of said Act is hereby amended so as to read as follows:

Section Thirty-five. Whenever the returns are required to be transmitted by one Clerk of a Board of County Commissioners to the Secretary of State, it shall be the duty of such Clerk, if not otherwise directed by the Board of County Commissioners, to deliver the same to some Postmaster of the county, at the Postoffice, to be transmitted by mail, taking from such Postmaster, if it can be obtained, a certificate setting forth the time when such reports were deposited in the Postoffice, which certificate the Clerk shall file in his office. If the Clerk of the Board of County Commissioners should neglect, or refuse to make out and transmit, the returns, or abstract, as required by this Act, he shall be deemed guilty of a misdemeanor in office, and, upon conviction thereof, shall be fined in any sum not less than one hundred dollars, or more than five hundred dollars, and imprisonment in the county jail for not less than one month, or more than six months, or both such fine and imprisonment in the discretion of the Court, and shall be removed from office.

Sec. 3. All Acts, and parts of Acts, in so far as they conflict with the foregoing Act, are hereby repealed.

CHAP. XXX.—To the Honorable the Senate and Assembly of the Legislature of the State of Nevada:

By order the following petition was adopted:

Your petitioners, the Board of County Commissioners of the county of Washoe, respectfully represent to your Honorable Bodies, that on the second day of February, 1891, the residents of the town of Franktown in this county, by flood, occasioned by the breaking of a reservoir, suffered loss of their dwellings, household goods, etc., and left them in a destitute condition for shelter and necessities, and, therefore, your petitioners ask that your Honorable Body make an appropriation of five thousand dollars for the relief of said sufferers, subject to the distribution by this Board and such other person as you may designate.

An Act for the relief of the sufferers by the breaking of the Little Valley dam. [Approved February 16, 1891.]

The people of the State of Nevada, represented in Senate and Assembly, do enact as follows:

Section 1. For the purpose of furnishing immediate relief to those rendered destitute by the breaking of the Little Valley dam, near Franktown, on February 2, 1891, the sum of seven hundred and fifty dollars is hereby appropriated out of any money in the State Treasury, not otherwise specially appropriated.

Sec. 2. The sum appropriated by Section One of this Act shall be placed in the hands of the Governor of the State, Joseph Frey, D. H. Lodge and Elias Owens, to be by them distributed in such amounts and manner as the immediate necessities require.

Sec. 3. The State Controller is hereby authorized to draw his warrant in favor of the Governor of this State, Joseph Frey, D. H. Lodge and Elias Owens for the amount appropriated by this Act, and the State Treasurer is hereby directed to pay the same.

Sec. 4. This Act shall take effect immediately.

Summer Sojourners.

The completion of the second transcontinental railway will doubtless give an impetus to travel and bring to this State many visitors who will remain with us through the Summer. There is one Europe which most persons of means visit sooner or later, but after one or two trips across the Atlantic the tourist's thoughts are naturally turned to another direction. Modern conveniences of travel make land excursions more pleasant than by sea. There is equal opportunity for social intercourse under conditions which secure to each party a reasonable degree of privacy. The palace sleeping cars throw a party of fifteen together almost as one family, but the party can easily be selected and kept strictly to itself. But if the disposition exists, there is the evident opportunity for chance acquaintances which often gives zest and color to an otherwise monotonous journey. The new route opens a new country to tourists. At Kansas City the Atchison line takes a southwestern course through Kansas, Colorado, New Mexico, Arizona and the southern counties of California. The old route will take excursionists home through Central California, Nevada, Utah, Wyoming, Nebraska, to Omaha, a short distance from the place of starting. From Chicago west it is not necessary to travel a second time over a mile of road. For Summer residence the interior of California offers many advantages. If the seashore is objected to as too cool, there is an inland slope of many miles in which almost any degree of warmth may be enjoyed. In the warmest places the nights are cool enough for refreshing sleep. In San Francisco the mornings are usually fine, but the afternoons are breezy. The Eastern visitor feels them uncomfortable. They are perhaps really enjoyable only to those who have sweated in a hot climate until anything is welcome as a relief. The resident consoles himself with the reflection that if it were not for the sea breeze the heat would be unendurable. But our friends from the East are not expected to remain long in a city in the Summer where residents set the example of flight to the country.—[S. F. Call.]

The Two Chiefs.

The question of who is going to be Chief of the Police Department under the consolidation of the governments of Gold Hill, Virginia City and Storey county, has not yet been settled. The footlight comments as follows upon the matter:

The candidates so far announced are Miles Finlen, Jack Bradley, Jason Baldwin, Dan Sheehan and James McArdle.

It is very generally understood that Matt Canavan is in favor of Bradley, which, if true, gives him a great deal of the best of the fight. Finlen, however, is rustling very industriously, and is bringing every available influence to his assistance.

It is hinted that a combination is to be made between Finlen and Baldwin, by which, in event of either being elected, the other will be deputy.

All the candidates so far in the field are Democrats, with the exception of Baldwin, who cannot be said to be anything in particular.

For Chief of the Fire Department, Billy Pennington, John Riordan, John Rush and K. B. Brown are mentioned.

Pennington, the present incumbent, is a Republican and the rest are Democrats. Riordan is the man who succeeded Brown when that gentleman was deposed by Mayor Young and his Board of Aldermen. Riordan was prominently connected with the old volunteer department.

As the Board of County Commissioners is composed of three Democrats and two Republicans, the Republican candidates will doubtless have a very slim chance of winning.

The Legislature to be chosen this Fall in Virginia will decide the election of a United States Senator in place of Johnston and well informed Virginians say Johnston's successor will not be a Democrat, but Mahone's struggle in Virginia will end in his complete success and this without regard to the debt question, which is likely to disappear.

Mothers! Mothers!! Mothers!!!

Are you distressed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you that once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. Jan 10-17-Su-W-Faw

A PLEASANT Excursion.—The San Francisco Beach Report says: "Wm. R. Bentley, connected with the Journal of Commerce, leaves this day within a few days for Chicago, where he will make headquarters during the organization of a grand excursion party to make a three months tour of the Pacific Coast, stopping on route at Salt Lake, visiting the head centre of the twin relic, skirting Great Salt Lake, the magnificent WASATCH MOUNTAINS, and crossing the Sierra in view of Donner Lake, of sad memory, reaching California in the sweet Spring time; and in succession visiting Monterey, Santa Cruz, Yosemite, and the great, separating into divisions going to Japan, Central America and possibly Oregon."

Two engines—32 and 33—for the Southern Pacific of Arizona, passed through last evening, with full heads of steam on.

The school Trustees have renewed the insurance on the old school house. They keep \$10,000 on the brick, \$3,900 on the old house, and \$2,500 on the new one on the south side.

A big sale of shrubs and trees is now taking place at the Arlington Nursery. A million trees and an almost endless variety of shrubs and plants are to be sold at private sale within 30 days. These plants are well set with roots and are acclimated.

All the favorite brands of lager beer are constantly on hand at the Oasis saloon, also, the best of wines and liquors. A fine free lunch is set out for the accommodation of customers, and the same old brand of extra fine bit cigars are still kept. Bechtel is still at the helm.

Oliver Goyal was arrested by Constable Avery Thursday night for selling whiskey to Indians. He pleaded guilty in the Justice's Court yesterday morning and was sentenced to pay a fine of \$180, including costs or to go to jail for ninety days. He went to jail. This is his second offence. The first time he got thirty days.

Carson and Colorado

It is now intended to run the first passenger train out over the Carson and Colorado Railroad to Hawthorne on the 15th proximo. It will probably be made the occasion of an excursion trip by a small party. It is said there is some fine and very picturesque scenery down along the shores of Walker lake.

Pavilion Sold.

The Trustees of the Agricultural Society yesterday passed an order deciding the Pavilion to C. C. Stevenson, in consideration of his mortgage of \$8,086. The point in giving the deed was simply to save Mr. Stevenson the expense of foreclosing. Mr. Stevenson has very kindly granted the Society the use of the Pavilion for the fair free of charge.

About Bricks

There are but few bricks in this market and \$12 50 is asked for them. Jose has 50,000 and O'Hara 20,000. These were left over from last year. On account of the high price demanded, those of our people who contemplate building of brick are putting it off until the weather will permit. Frank Cutts and others to burn a few kilns, when the price will be \$8 or possibly only \$7 per thousand.

The skating rink will open at the Pavilion to-night. Admission 25 cents, children free; skates 25 cents. Mr. Tucker has had the Pavilion floor put in splendid shape for skating and we anticipate a renewal of the pleasant times of ten years ago, when roller skating was all the rage in Dyer's Hill.

Needs for Everybody

Just received from the best gardens of the Eastern States and California a choice lot of fresh and pure Vegetable and Flower Seeds. Being experienced dealers and large buyers, we buy cheaper and sell our seeds twenty per cent. cheaper in bulk to farmers and gardeners than any other house in Reno. Call and see for yourselves—Alfalfa, Red Clover, Timothy, Red Top, White Clover, Blue Grass, Fine Mixed Lawn seeds. A large stock as cheap as the cheapest.

THE OREGON WINNEMUCCA AND GULF RAILROAD.

The Winnemucca Silver State speculates as follows upon the proposed new railroad:

Several of our exchanges speak of the construction of a railroad from Oregon to the Southern Pacific as if it was a fact. We have no more reason to believe that this road is determined upon, and will be built at a very early day. The Southern Pacific will reach Galveston, or some other port on the Gulf of Mexico, during the present year. The Central Pacific company will then commence operations in this State and Oregon, and in two years thereafter, at furthest, Oregon will be connected by rail with the Gulf of Mexico. This will be the best paying road west of the Missouri. It will carry the trade of Oregon, Washington, and Western Idaho and Nevada. Oregon and Washington Territory alone are capable of sustaining the population of an immense empire. Their rich and extensive agricultural lands, their wonderful forests, their inexhaustible coal field and iron ores and precious metals make them an inviting field for railroad enterprise. Gould and other railroad kings are reaching out with eager grasp for the embrace of these prolific States and Territories, with a view of securing their trade to New York and other Eastern ports. The Gulf road, however, has every advantage of all other projected routes, as it will have no snow to contend with and no mountains to cross from Eastern Oregon to Maricopa, and no heavy grades or short curves. If Winnemucca shall be so fortunate as to secure the point of intersection, it will be of immense benefit to the whole country. The value of this road to Humboldt county cannot be over estimated. In the matter of taxes, it will add a hundred and fifty miles of railroad track to the taxable property, bearing thousands of dollars in other railroad property. The machine shops of both roads will centre at Winnemucca, and it would become the most important town in Nevada, in business and population.

Broad Gauge vs. Narrow Gauge

We clip the following comparison from the Grass Valley Union.

The last year has been one in which a great many miles of railroad have been built, and from present appearances there will be no diminution of the enterprise in years to come. Many of the roads now being built are narrow gauge ones, and even some of the long lines now in course of construction have adopted the narrow or 3 foot gauge for their roads. There seem to be a good deal of wisdom displayed by the owners in thus adopting the narrow gauge, for roads of this width can be constructed at least 40 per cent. less than the broad gauge can be, and they can be run at one-third the expense of the broad gauge. But the greatest thing in favor of the narrow gauge roads is the diminishing of the dead weight to be hauled by the engines. For instance, on the average the broad gauge is obliged to use one ton of dead weight for every ton of freight transported, while the narrow gauge will carry over two tons of freight to each ton of dead weight. This is a great argument in favor of narrow gauge railroads, and by increasing the rolling stock the little roads can carry almost any quantity of freight. It is almost certain that the 3 foot gauge will be adopted for all short lines and as before stated some of the long lines now in contemplation are likely to build narrow gauge roads, thus being able to transport freight at greatly reduced rates, and at the same time making good profits on the money invested.
